Pacific North Asia Service (PNA) Service Enhancements

Dear Valued Customer,

Swire Shipping is pleased to announce the upgrade of our Pacific North Asia service (PNA) which will improve the frequency of this service to **15 days**. With a proud history of over 35 years linking Asia to the South Pacific, Swire Shipping is delighted to continue to lead the way with these service improvements.

The PNA service offers market leading frequency and unrivalled direct port coverage connecting Asia and the South Pacific with dedicated sailings and unprecedented port coverage, served with our own fleet of multi-purpose vessels suitable for all varieties of cargo including dry and reefer containers, vehicles, breakbulk and heavy lift project cargoes. The service will also include a newly-introduced direct port call at Xingang (Tianjin), China with immediate effect.

This service enhancement will complement Swire Shipping's existing services in Asia and the South Pacific and provide our customers greater access to our expanding network with reach in Europe, USA and Oceania.

We appreciate your on-going support. Please do not hesitate to contact your local Swire Shipping representative for further information.

Yours Sincerely,
Swire Shipping
